VMware® Workspace™ ONE™

What Is Workspace ONE?

A simple and secure enterprise platform that delivers and manages any app on any device by integrating identity, application, and enterprise mobility management

60%
of employees would prefer to use a personal device for work and play

69.2%
BYOD adoption rate

30%
of employees use their own device, despite company policy

2016 has been dubbed the "year of online extortion" by Micro Trend

Customer Needs

Support **Windows, Cloud, & Mobile Apps** While Maintaining Simplicity

Support **Employee Choice to Use Any Device**; BYOD or Corporate Owned

Keep **Corporate Data Secure** Without Inhibiting User Productivity

Control **Access to Apps and Data** Based on Compliance & Conditional Parameters

Efficiently **Provide Access to New Apps and Data** by Automating App Delivery

Expansion of Mobility

It started with email...

Today, it's about so much more.

Driving the Digital Workspace
